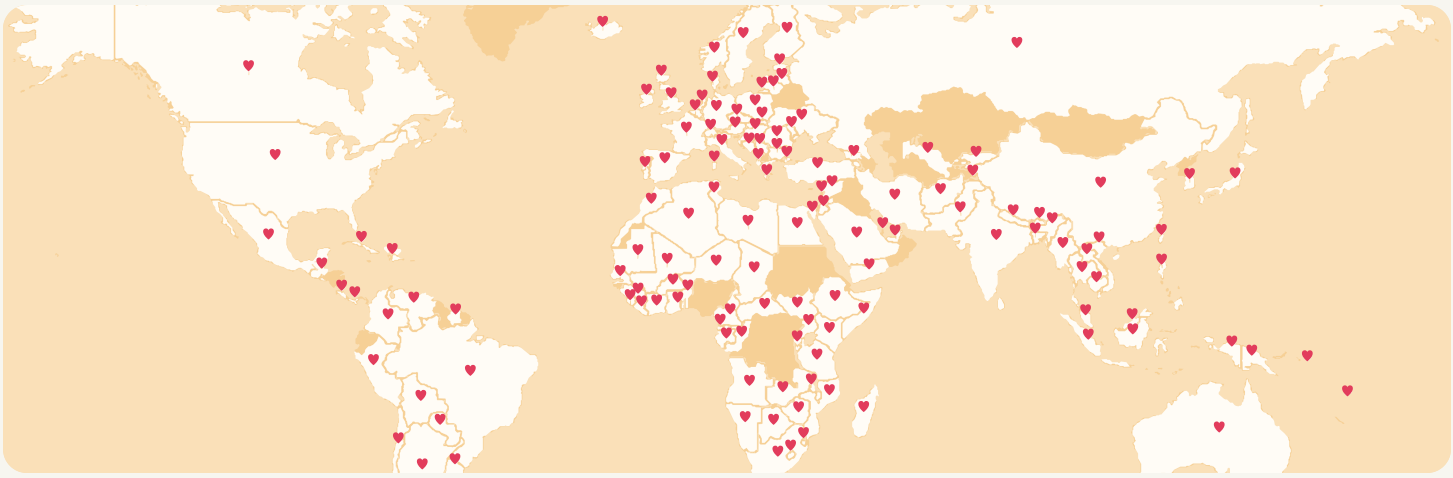
GLOBAL COMPASSION COALITION

PEOPLE • KNOWLEDGE • CULTURE •
COLLECTIVE ACTION • SYSTEMIC CHANGE

Compassion brings us together.
Together, we can change the world.



For hundreds of thousands of years, human beings have survived by depending on one another. Caring, cooperating, and acting together are deeply rooted in our biology and evolution. Compassion, the wish to ease suffering and the will to do something about it, is part of that inheritance, and it can grow in every one of us.

The Global Compassion Coalition was created to put that capacity to work at the scale our world now requires.

"I believe the world can change."

— James, South Sudan

CAMPAIGN FOR 2027

Big problems require big responses. Throughout history, progress happens when many people join together – whether in neighborhoods, organizations, towns, or countries. We use the unique power of compassion to catalyze the collective action we need today.

The GCC has now built a global community with deep roots in science, practice, and activism. 2027 is about scaling up with expanded advocacy campaigns and projects in collective action – all leveraged through our distinguished partner networks. We'd love your help with our proven, bold, and high impact efforts!

STRATEGY FOR GROWTH

We will double the size and effects of our coalition through:

- Active recruitment on social media and YouTube
- Online events, courses, symposia, and podcast
- Annual international conference (in-person and online)
- Marketing support from allied organizations
- Major outreach across Latin America

STRATEGY FOR ENGAGEMENT

When many feel divided and despairing, we offer real ways to feel more connected and hopeful through:

- Commitments to compassion as a moral stand, personal practice, and call to action
- Showcasing 12 Compassion Weavers each year with important local projects
- Rich discussions of timely issues on HomeGround, moderated by prominent figures
- The regular online Compassion Cafe, as an opportunity to connect with others

STRATEGY FOR ACTION

Powered by compassion, we show people what they can actually DO to make a better world, starting where they are and moving out in widening circles, through:

- Building our Center for Compassionate Action, with toolkits, best practices, and inspiring examples
- Developing our demonstration projects in collective action – Compassion Labs – and adding new ones
- With partners, pursuing major influence campaigns on timely issues, such as children in crisis

Our Request: $320,000 to fund the Campaign for 2027

With your help, we can continue our work and expand the outreach, trainings, events, and projects that carry compassion forward, together.
